*Re: Environmental Baseline Survey
VDOT Rt. 337 (Hampton Boulevard) Improvements
Naval Station Norfolk
Norfolk, Virginia
MM&A Project Number H0242*

Dear Mr. Barnes:

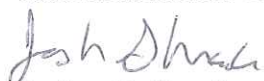

On behalf of the Virginia Department of Transportation (VDOT), Marshall Miller & Associates (MM&A) submits this letter as a follow-up to the Environmental Baseline Survey (EBS) for the proposed Route 337 (Hampton Boulevard) improvement project at the Naval Station Norfolk (NSN) in Norfolk, Virginia. MM&A submitted the EBS for this project on October 20, 2005. The EBS recommendation was a Finding of Suitability to Lease (FOSL) for the NSN property associated with the Hampton Boulevard improvements.

To confirm that the October 2005 EBS reflects current conditions of the NSN property, MM&A reviewed the VDOT project plans and conducted a site inspection. MM&A verified that the extent of the road project limits (including easements) remained consistent with that covered in the EBS. Then on April 17, 2008, MM&A inspected the NSN property associated with the proposed project. Aside from new/upgraded subsurface utilities adjacent to Hampton Boulevard, the property has remained unchanged. Therefore, the information and conclusions within the EBS remain valid, and a FOSL is still recommended.

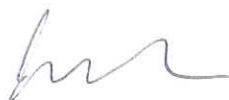

If additional information regarding this project is needed, please contact our office at
(804) 798-6525.

Sincerely,

Marshall Miller & Associates, Inc.
